

2024 Tokyo Tech Research Showcase

“Various Modalities in AI for Industry”

Venue: Rama Gardens Hotel / Online

Date: Friday, January 19, 2024

Time: 13:00 – 16:00 (THA), 15:00 - 18:00 (JST)

Free of charge / Advance registration required.

Tokyo Institute of Technology (Tokyo Tech), in cooperation with the National Science and Technology Development Agency (NSTDA), will host the **2024 Tokyo Tech Research Showcase** on Friday, January 19.

This event will cover research on “artificial intelligence (AI) technology for language, speech, and image processing”. Generative AI is rapidly changing our lives, and how to effectively use AI is now an urgent issue for society. We invite you to join in this important discussion on effective AI utilization.

This event will be held in English.

Tokyo Tech Research Showcase is organized by Tokyo Tech ANNEX Bangkok,
co-sponsored by Tokyo Tech and NSTDA,
and supported by JETRO Bangkok and Tokyo Tech Alumni Association Thailand (Thai Kuramae Kogyokai).

Registration

You can register to attend onsite or online:

Onsite: <https://forms.gle/21ssBeqCVfDydk5BA>

Online: https://us06web.zoom.us/webinar/register/WN_mBSNP6qBQ4OU102n7Hk53g#/registration

We will close onsite registration when venue capacity is reached, but you will still be able to attend online.

Please register by Wednesday, January 17, 2024.

- Note:**
- ① This workshop will be recorded. The recording will be later uploaded to the Tokyo Tech and NSTDA websites.
 - ② Organizers may take photographs or videos during the event, which may be used on the Tokyo Tech and NSTDA websites.

Tokyo Tech ANNEX

To further advance academia-industry collaborations, Tokyo Tech established Tokyo Tech ANNEX Bangkok at Thailand Science Park in March 2018. Tokyo Tech ANNEX Bangkok facilitates the identification of potential seeds for international collaborative research with companies and other organizations in Thailand and the surrounding region.

Inquiries:	Tokyo Tech ANNEX Bangkok Tel: +66 2 564 8016 - 8018 E-mail: tokyotech@titech.in.th
------------	--

Tokyo Tech VR available

You can get more information of the speakers at the main lobby.

Program

- 13:00 – 13:10 Opening Remarks
Prof. Nobuhiro Hayashi
Vice President for International Affairs,
Tokyo Tech
Dr. Patchralita Chatwalitpong
Vice President, Science and Technology
Human Resources Development, NSTDA
- 13:10 – 13:35 Assoc. Prof. Takahiro Shinozaki
School of Engineering, Tokyo Tech
*“Spoken language acquisition by
autonomous agents with intrinsic
motivation”*
- 13:35 – 14:00 Prof. Manabu Okumura
Institute of Innovative Research
Tokyo Tech
*“Language Processing and Its
Applications in the Age of Pre-trained
Models”*
- 14:00 – 14:25 Dr. Prachya Boonkwan
Language and Semantic Technology
Research Team, AINRG, NECTEC
*“OpenThaiGPT: Large Language Models
for Thai”*
- 14:25 – 14:50 Prof. Koichi Shinoda
School of Computing, Tokyo Tech
*“Advanced object detection techniques
for visual scene understanding”*
- 14:50 – 15:00 Closing Remarks
- 15:00 – 16:00 Coffee Break / Networking

Speakers' Profiles

Takahiro SHINOZAKI
Associate Professor
School of Engineering
Tokyo Institute of Technology

Takahiro Shinozaki received the B.E., M.E., and Ph.D. degrees in computer science from the Tokyo Institute of Technology, Tokyo (Tokyo Tech), Japan, in 1999, 2001, and 2004, respectively. He is currently an Associate Professor at Tokyo Tech. From 2004 to 2006, he was a Research Scholar with the Department of Electrical Engineering, University of Washington, Seattle, WA, USA. His research interests include automatic spoken language acquisition and understanding, spoken language processing, anomalous sound detection, and their applications.

Manabu OKUMURA
Professor
Institute of Innovative Research
Tokyo Institute of Technology

Manabu Okumura received B.E., M.E. and Dr. Eng. from Tokyo Institute of Technology (Tokyo Tech) in 1984, 1986 and 1989, respectively. He was an assistant professor at the Department of Computer Science, Tokyo Tech from 1989 to 1992, and an associate professor at the School of Information Science, Japan Advanced Institute of Science and Technology from 1992 to 2000. He was also a visiting associate professor at the Department of Computer Science, University of Toronto from 1997 to 1998. From 2000, he was an associate professor at Precision and Intelligence Laboratory, Tokyo Tech, and he is currently a professor at Institute of Innovative Research, Tokyo Tech. His current research interests include natural language processing, especially text summarization, computer assisted language learning, and text data mining.

Prachya Boonkwan

Researcher

Language and Semantic Technology Research Team

Artificial Intelligence Research Group

**National Electronics and Computer Technology
Center**

Education:

2008 – 2013 PhD in Informatics at The University of Edinburgh, UK

Experience:

2005 - NECTEC, Researcher

Research topics: Thai language processing, syntactic parsing, machine translation, language resource development, and machine learning.

Projects at my responsibility include:

- The development of a semi-supervised Thai parser scalable for large data
- The construction of Thai treebank based on contemporary Thai primary school readers Māna and Mānī

Koichi SHINODA

Professor

School of Computing

Tokyo Institute of Technology

Koichi Shinoda received the BS and MS degrees from the University of Tokyo, Tokyo, Japan in 1987 and 1989, respectively, both in physics, and the DEng degree in computer science from the Tokyo Institute of Technology (Tokyo Tech), Japan, in 2001. In 1989, he joined NEC Corporation. From 1997 to 1998, he was a visiting scholar with Bell Labs, Lucent Technologies, Murray Hill, NJ. From October 2001 to March 2003, he was an associate professor at the University of Tokyo, Japan. He is currently a professor at Tokyo Tech. His research interests include machine learning and multimedia information understanding.
