RDI Gen 1 Product Performance

Product performance and technical solution to respond product quality

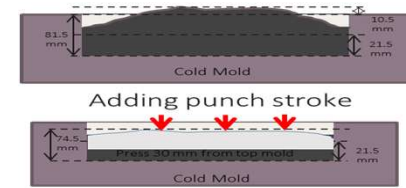

Product Design

FEM can help to design the product with Innovation, Faster and more Effective.

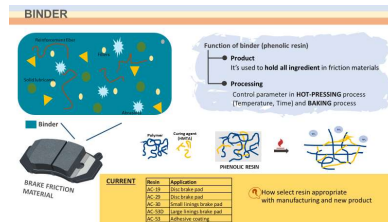

Process Design

Predicted range of the hill's height, Realize the methods and look for the results

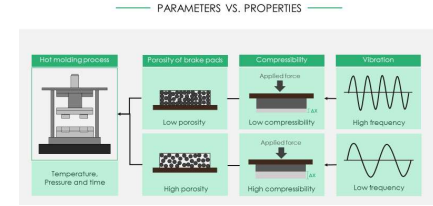

Raw materials

Reduce cost
Enhance brake friction performance

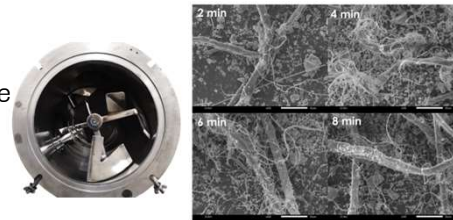

Hot pressing

Wellness of density distribution
Obtain optimized machine setting condition

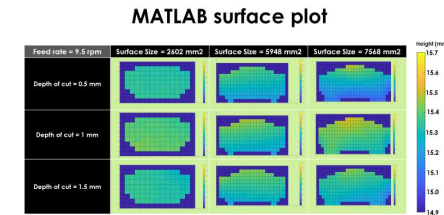

Mixing

Enhance stability of mixture density
Wellness of chemical distribution

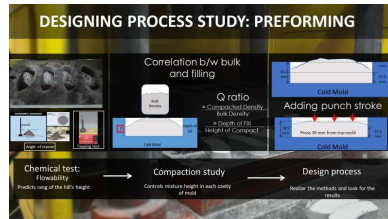

Grinding

Obtain the standardized method of the process

Preforming

Wellness of density distribution

Recycling dust

Special dust
Reduce cost from the waste

ACTIVITIES OF THESIS PHASE

PROBLEM SOLVING AND IMPROVEMENT IN BUSINESS – 12 MONTHS

RDI Gen 2 Industrial Performance

Industrial Performance which enable to contribute the **quantity and quality of finished goods** on
